

This document contains a chart with UC subject areas available at the University of Nicosia (UNIC). At the end of the document, subject area-specific information, unique academic opportunities, and course restrictions are included.

This is not an exhaustive listing of subject areas and course opportunities. We recommend you check the [syllabi database](#) for a more complete list of options. You should also check the [schedule of classes](#) to confirm which terms courses are available as it changes year to year.

In addition, refer to the UCEAP course catalogue to see which courses UC students have taken in the past. Keep in mind that there may be courses that cover a particular subject but are based in a different department (e.g. International Relations courses in the School of Law).

Below is an overview of subject areas available at each host institution. This list may change as host university policies change. The information in the overview table is still subject to the restrictions found later in this guide.

KEY

✓	Available
✓*	There are exceptions indicated later in document
Blank	Not confirmed, courses in the subject may exist and you should check with the relevant departments at the host university

^This table equates courses, majors, and departments at UNIC to UC subject areas, majors, and departments.

Unique Opportunities

You have access to the School of Law and can take undergraduate law courses on topics such as Criminal Law, European Union Law, Contract Law, Commercial Law, Immigration Law, and more.

The School of Business offers unique courses in Cryptocurrency and Blockchain technology, Sports Management, and Energy, Oil and Gas Management.

You can participate in independent research and internships while at UNIC. Partner with a local faculty member to conduct research in your field, or intern in subjects ranging from international business to communications and digital media to education.

Areas of Study at UNIC not included in table above and available to UC students

Accounting

Art & Design

Banking & Finance

Dance

Hospitality & Tourism

Management

Marketing

Nursing

Subjects Primarily Offered in Greek

*Education (There are some Education courses available in English in Music Education, Science Education, and Education Psychology)

Nutrition (those with the NUTR course code)[°]

Pharmacy[°]

Social Work (SOWK)[°]

Sports Science[°]

[°]These courses can be delivered in English with a group of seven or more students in the same class.

Course Restrictions

Degree courses through the Medical School are not available to UCEAP students. These courses are coded MED so they are easy to spot.

Undergraduate students can take only undergraduate courses (course numbers 100 - 499).
