In my words: *After forming strong friendships with Germans I met in California, I knew that Germany was the place I wanted to study abroad. The German culture has always fascinated and perplexed me, but after living in Germany I have a better understanding of it and an even greater love for it.*

In my words: *I chose this particular program because I study history and the courses offered were not only easily transferable to my home university, but perfectly suited to what I study. The program itself was one with great benefits, not just in terms of academia, but in that I got the great opportunity to see the world and be exposed to a new, wonderful culture. I couldn't even begin to adequately describe it in only a few short sentences.*

In my words: *The fall semester with FU-BEST allowed me to only miss fall quarter at UC and get the study abroad experience I so strongly desired. The convenience is what really got me interested.*
