In my words: *When I arrived in Italy, everything felt like a dream: for five*

months, I knew unending bliss and adventure around the clock. From walks to school along the Tevere with daily stops for gelato, to finally being awed by the Coliseum, to befriending Italians (2 friends have already visited SB!), studying in Rome was the most perfect portion of my life. I learned, laughed, and fell in love with the Eternal City.

In my words: *At first, I believed that studying with UCEAP would be just one long vacation away from my boring routine back on my home campus. However, I found it rather amazing that in just one semester, I was able to experience a whole new culture, of course filled with delicious food, beautiful monuments and landmarks, and meet amazing people who showed me different parts of a historical city that you'd never expect had existed. I definitely took advantage of sight-seeing in many surrounding countries, while along the way, I learned many things about myself and the way I perceive the world around me!*

In my words: *Studying abroad in Italy with UCEAP was one of the best decisions I've ever made in my life. For four months my life was filled with rewards, challenges, nonstop adventure, and*

experiences beyond anything I could have ever imagined. My semester abroad enabled me to learn about the incredible Italian culture and broaden my horizons and way of thinking about the world. From daily walks past the Tiber River and attending school a close walk away from the Colosseum, to experiencing the divinity that is Italian cuisine and meeting people from all over the world, studying in Rome was an incredible portion of my life that I will never forget. La vita è bella!

In my words: *Choosing to study abroad in Rome for a semester was truly the best decision of my college career and also one of the most rewarding. Living and learning in the center of a city where history and modern life collide was an unbeatable experience.*

Studying through UCEAP also assured that my units would transfer and allowed me to create lasting friendships with students from many other UC campuses. My professors were accomplished, enthusiastic and each encouraged us to explore as much of Rome, Italy, and Europe as possible, something I was lucky enough to take advantage of for a life-changing four months.

In my words: *I can't*

believe my time living in Rome is gone already! It was an incredible four months! I was constantly struck with awe from the surrounding beauty and culture--everything from the most intricate details on the side of a building to the best darn pasta dishes of my life! Studying in an environment so steeped with tradition and art provided me with a valuable perspective in both my studies and future endeavors in life!
