Miriam joined the UCEAP in September 2015. Her previous experience includes working with international students for more than 6 years. She is looking forward to assisting all the students with their queries and sharing lots of new adventures.

Miriam can relate to how UCEAP students feel about studying overseas because she did a similar exchange in the Netherlands and in California (UCSB). Being part of an exchange program is a great opportunity to discover the world, learn about other cultures, and open one’s mind. During her experience in California, Miriam had the opportunity to travel, meet lots of international students, and experience a different university system. She admires people who choose to study in another country, as she considers it to be a brave decision that has a positive impact on all aspects of the individual’s life. Although at the beginning it can be tough, it is an experience that students will never regret!

In 2010, Miriam came back to sunny Barcelona to finish her Masters in International Relations. Since then, she has been working with international students in various positions. In all of these jobs, Miriam enthusiastically attended to all student queries regarding academics, accommodations, and extracurricular activities. She strives to ensure a smooth transition for students into a new life, in a new city, and successful immersion into a new culture.

As a proud “barcelonina”, born and raised in Barcelona, Miriam’s knowledge of the city is extremely valuable. She always enjoys sharing this knowledge and her experiences with students. Miriam enjoys the great weather all year round, likes to study the architecture in the historical area of Barcelona, and loves to go for a stroll near the beautiful beaches that surround the city. Her goal is to make sure that every student has the most amazing study abroad experience in Barcelona and she would be very happy to learn that the students fell in love with the city.
