

INMACULADA CARMONA

Program Coordinator, UCEAP Córdoba Study Center
University of Córdoba
University of Cádiz

As the UCEAP Coordinator for programs in Córdoba, Inma Carmona is the link between UC students and all things Córdoba. She has worked with UC and with the University of Córdoba's language institute, UCOldiomas, for many years. She knows all the instructors and makes sure that students are comfortable in their classes and in their housing arrangements. Besides all that, she arranges the Intercambios so UCEAP students can meet up with Spanish students for language practice, and also the volunteer opportunity.

In addition to coordinating the two programs in Córdoba, Inma serves as the Program Coordinator for the Pre-Intensive Language Program (Pre-ILP) and the Intensive Spanish Language program at the University of Cádiz, which take place during the summer. The Pre-ILP is open to students attending the following UCEAP programs in Spain: [Complutense University of Madrid](#), [University of Barcelona](#) (fall and year options only), [University of Granada](#).

Throughout these programs, Inma keeps UCEAP students informed about cultural and social events in town, and suggests activities for students to do and places to go in their free time.

Inma is very proud to live in Córdoba and enjoys helping students fall in love with Andalucía just the same. In Inma's opinion, Córdoba is neither too big nor too small, which makes it easy to handle; most places are within walking distance. Like Córdoba, Cádiz is a very pleasant place to live filled with many different cultures, beauty, and lots of history!
