In my words: I chose to study abroad in London through UCEAP because it helped me fulfill my requirements and gave me the opportunity to explore and truly become a Londoner. It's very easy to fall in love with this city because there is so much to see and do around every corner. London is full of excitement and through UCEAP's program you get the opportunity to live right in the center of it.

In my words: I always knew I wanted to study abroad during college, and London's diversity, multiculturalism, history, and architecture greatly appealed to me. The opportunities are abundant, the experiences are once in a lifetime, and the friendships you make can last forever. Studying abroad gave me a world perspective and I am now a more cultured and knowledgeable global citizen. Studying abroad was the best decision I ever made--I am so grateful that I was able to fulfill a dream of mine, and UCEAP made that possible.

In my Words: The location of the center, which was in central London, was most ideal. Also the program's group activities like field trips to Stonehenge as well as classes taught by amazing and talented professors from prestigious universities in London really sealed the deal for this program.

In my words: As a returning student, it was important to me the program I chose would maintain academic standards comparable to my home university while allowing me the chance to explore a different culture. Because the classes are specifically centered on the city of London and British culture, I was able to experience my host city in ways that would not have been possible otherwise. It is an experience I can recommend to other students without reservation. Go! Make it happen! You will get more out of it than you can ever imagine.
