

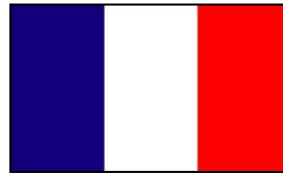

Photograph Instructions

Perspectives on the Global City, UC Centers London & Paris

The photographs required for the Multi-City program do not need to be “official” passport photos but they do need to be as close as possible to passport quality and size and on photograph paper. Print your name and “Multi-City” on the back of each photo. Submit 2 photos directly to UCEAP.

In addition, you may want to obtain 2 more photos and keep them for your own future use. You will need photos when registering with the police (a requirement for all international students), and for various rail and other cards or forms.
