

## Request for Disability Accommodations Abroad Instructions

### General Tips for Students with Disabilities

#### To facilitate accommodations you may need abroad, UOEAP recommends:

- *Disclose Early:* Some accommodations may require three to six months advance notice to prepare.
- *Plan Ahead:* Research the accessibility of accommodations in the host country's university and funding for accommodations.
- *Be Flexible:* Facilities and/or support services may not be available at each location abroad in the same range and quality as on the UC campus.

### Submitting Documentation to UOEAP

If you need to request reasonable accommodations for a physical or mental disability to assist you in studying abroad, you must submit a letter from your campus Office for Students with Disabilities documenting your accommodation needs, and how such accommodations will be funded. The earlier the accommodations request is made, the more measures UOEAP can take to explore possible accommodations with the host institution. Some host universities may not research or make arrangements for accommodations without this letter. Please also note that accommodations provided on your UC campus may differ and/or may not be available in the host country. In addition, UC EAP does not pay for the cost of accommodations you might need while studying abroad.
