"Our week long field trip to Sapa was awesome. Sapa is up in the Hoang Lien mountains in north Vietnam and is home to the Hmong and Dao ethnic minorities. The opportunity to meet them was both unique and fascinating. It is amazing to see how their culture view the world, remnants of long standing traditions. However, we also looked at the impact the tourism industry has on the ethnic minority's living... and certain side effects that tourism inevitably brings. My time abroad strengthened my ability to see the world in a much more global perspective."
