Explore Japan’s unique blend of ultra-modern and traditional culture with courses in both English and Japanese.

- Immerse yourself in campus life; join a student club on auto racing, anime, manga, kabuki, or global policy
- Engage in hands-on laboratory research in robotics, biochemistry, biotechnology, materials, and more
- People-watch in Harajuku, enjoy hanami (cherry blossom viewing), go to a baseball game, or attend a Sumo match
- Live in an international house, a dorm with Japanese students, with a host family, or your own apartment
- Access Japanese government, host university, and private scholarships to help finance your stay

Living abroad as a UCEAP student is an absolutely unrivaled experience. You learn to be independent while learning so much about another culture. By becoming intimately familiar with another city and making friends with people from another country, your view of the world broadens and you come back completely changed in a way that no other experience can match.
