

ENGINEERING

Engineering students not only gain valuable international experience on UCEAP, but also conduct research while taking undergraduate coursework. My experience abroad profoundly changed my life and was a decisive factor in my obtaining a job in the industry.

UNIVERSITY OF CALIFORNIA
EDUCATION ABROAD PROGRAM

ENGINEERING

Studying abroad offers an exciting framework for your major, equipping you with an international résumé and confidence in your field. On UCEAP, you can earn UC credit as you collaborate with leading scientists on an internship, join group lab experiments and simulations, or conduct pioneering research at an internationally acclaimed university.

UC-Approved Courses

All our courses abroad award UC credit and grades. Among many topics, explore new modes of problem-solving, entrepreneurship in sustainable technologies, automotive engineering, and more.

Featured Programs for Your Major

Below are featured programs with excellent student reviews, a wide availability of courses, and valuable field training such as research or internships.

Australia

University of Melbourne

Brazil

Pontifical Catholic University of Rio de Janeiro

Chile

University of Chile, Santiago

France

University of Bordeaux

Germany

Technical University Berlin

Germany

Engineering for Sustainability, Munich University of Applied Sciences

Hong Kong
