

MATH & PHYSICAL SCIENCES

After studying abroad, I appreciated my major much more and came back with a new love for science. If you are interested in using your knowledge of science to impact lives, I highly recommend you study abroad.

Alexandria De La Fuente
UC Davis

MATH & PHYSICAL SCIENCES

Studying abroad offers an exciting framework for your major, equipping you with an international résumé and confidence in your field. On UCEAP, you can earn UC credit and make rapid progress in your major as you learn new techniques for mathematical modeling, analyze remarkable fossils and geologic rock formations in the field, develop group work and oral presentation skills, or study materials chemistry.

UC-Approved Courses

All our courses abroad award UC credit and grades. Among many topics, explore math, accelerated options in calculus-based physics, chemistry, and earth sciences in diverse locations such as Taiwan, the UK, Germany, and Brazil.

Featured Programs for Your Major

Below are featured programs with excellent student reviews, a wide availability of courses, and valuable field training such as research or internships.

Australia

Australian National University,
Canberra

Brazil

Pontifical Catholic University of
Rio de Janeiro

Denmark
