

UCEAP SCHOLARSHIPS FOR STUDY ABROAD

All UC students are eligible for exclusive UCEAP scholarships. We are making available more than \$1 Million this year to bring life-long benefits to more undergraduates who may not as readily access a study abroad education.

Awards & Deadlines

Scholarships are awarded based on academic performance and alignment of a UCEAP program with your academic and career goals. We encourage students with limited financial resources, first-generation college students, transfer students, veterans, and majors in science, technology, engineering, or math to apply.

\$1,000 award for summer programs
