

GRADUATE STUDY PLAN (OPTIONAL)

Name: _____ Home University: _____

E-Mail: _____ UC Campus: _____ Major: _____

Enrollment in the courses listed below is not guaranteed. Course offerings and times are announced in the *UC schedule of classes* mid-way through the preceding term. In conjunction with your academic advisor, select a range of courses that will offer you a maximum of flexibility in scheduling.

This form is not mandatory, however, it may be helpful to faculty reviewing your application.

Please see UC catalogs for graduate courses in the 200-400 numerical series. A full time load of classes is 8-13 semester or quarter units. The number of units required varies by campus and graduate department; however, it will never be less than 8 units per term. If you will be working on a postgraduate thesis or dissertation during your EAP year, you may want to check with the graduate department applied to for the possibility of taking some of your coursework units as "Independent Studies", or 299 courses.
