Yonsei University HOUSING
Instructions

On campus housing fills fast. Students can live in the SK Global House or International House (I House). I House is owned by Yonsei University and SK Global House is owned by a company named Dongwon. Both are operated by SK Global House.

Once your application is submitted online and you complete the Predeparture Checklist requirements by the due date, you can expect your admission number from Yonsei by email within 3 weeks. Then you can apply for housing. You can find more information about housing in the Korea Program Guide for summer or academic year.

**IMPORTANT:** You must pay for housing on your own, even if you are on financial aid. Financial aid is disbursed well after the housing payment deadline. Only prompt payment directly to SK Global House by wire transfer will secure your housing.

**TB TEST**
Once your housing is confirmed, you will receive notification that you must provide a medical report with a TB test result in order to check into your dorm. This must be done within a week after your arrival. You can do it at the Yonsei Health Center (cost is ~$3 USD) or for free at the Seodaemun public health center. The transportation cost to the public health center is 2,300KRW round trip each visit (first to take the TB test and then to pick up the result form).

Alternatively, you can get a TB test before arriving in Korea. The test must be done within 2 months of the dorm move-in date. You can request a TB test when completing the UCEAP Health Clearance requirement. Note that the Health Clearance is submitted to UCEAP and the TB test results are submitted to SK Global House.

Students staying in the dorms longer than 4 months will be requested by SK Global House to submit another TB test result during their stay.
