HKUST Science
Letter of Recommendation Instructions

Submit one (1) letter of recommendation from your campus EAP advisor.

The recommendation letter must be on official letterhead and received in a signed and sealed envelope. It can be addressed to the host university (ex. Dear HKUST Admissions Committee).

Out of courtesy, you should allow at least two weeks for your advisor to write your letter. This means that you will need to plan ahead and notify them well before the due date.

For confidentiality, your letter of recommendation can be mailed directly to UCEAP by your advisor. However, we do prefer that all of your application paperwork arrive at the same time.
