National Taiwan University (NTU)
Application for Admission
Instructions

This program has a dual application process with UCEAP and NTU. Follow these instructions to complete the NTU online application.

**STEP 1: Online Application**
Review the “How to Apply” section of the NTU Office of International Affairs (NTUOIA) website before completing the online application.

**Study at NTU**
Your level of study is your UC level (Junior = 3rd year, Senior = 4th year).

**Accommodation**
You can choose the type of room you would like based on the dorm description in the link above. If you check “yes,” accommodation will be reserved for you. Any changes must be submitted in writing to NTU and may be subject to a cancellation fee. Note that the IYC dorm is available to UC students and that students must provide their own bedding and clean their rooms upon arrival.

**STEP 2: Uploading the Supporting Documents**
Scan a photo, statement of purpose, official transcript and passport to upload to the online application.

**A Copy of Medical and Accident Insurance Proof**—this information is provided to you in the EAP Participation Letter that you receive by email from UCEAP.

**Approval by your Home University**—your name will be sent to our office for confirmation.

**Statement of Purpose**—state the reasons why you chose NTU/Taiwan as the place to study and what you expect to achieve during your time abroad. It is also important to connect your major and the research fields you are interested in with courses available in NTU. This helps the Review Committee in determining if the department you applied for is the best fit for you.

**NTU Health Exam Form**—you can do this in the US or in Taiwan once you arrive. Please note this exam is not covered by UCEAP insurance if you get this done in Taiwan.

Submit the application electronically to NTU and keep a copy for your records.

**NTU Online Application**
**Check Application Status**
