UCEAP Vietnam
Internship/Research Project Proposal

A required component of the UCEAP Vietnam program is the internship/research project, designed to integrate academic coursework and reflection with community service.

In one to two paragraphs, describe the areas (i.e., environment, community health, business, etc.) and activities (organizing, teaching, promotion, etc.) that are of interest to you.

This is for planning purposes and does not guarantee approval. The UCEAP Visiting Professor will determine the feasibility of the proposal and its conformity with UCEAP standards. Final arrangements are made after arrival in Vietnam.

Email your proposal to Ann Rotlisberger (arotlisberger@eap.ucop.edu).
